#### AMENDMENT #006 TO CONTRACT C316031006

**CONTRACT TITLE:** 

Foster Care Case Management

**CONTRACT PERIOD:** 

October 1, 2018 through September 30, 2019

The State of Missouri desires to extend the above referenced contract at the same prices as the previous contract period.

Efforts are underway to replace the above referenced contract but are unfinished. As a result, the State of Missouri desires to extend Contract C316031006 at the same prices as the previous contract period in order to provide continuing and uninterrupted contract services.

All other terms, conditions and provisions of the contract shall remain the same and apply hereto.

The contractor shall signify acceptance by signing and returning this document on or before the date indicated.

DATE:

September 4, 2018

RE:

Extension of the Foster Care Case Management Contracts,

C316031001 through C316031007

The Department of Social Services (state agency) has requested the Foster Care Case Management Contracts, C316031001 through C316031007, be extended for twelve (12) months, October 1, 2018 through September 30, 2019 to allow for the re-bid process. Please refer to the attached email from Wade McDonald explaining the need for the one-year extension.

The solicitation process for the current contracts spanned a 12-month period. After the award of the contracts, five (5) protests were received. Based upon the need to the impact to children and their families, the need for consistency of performance measurements, the time required for the solicitation process, and time to respond to any potential protests, it appears a twelve-month extension is warranted.

Therefore, because these are essential services that must continue until the new procurement process is complete; I am requesting permission to process the contract extensions pursuant to section 34.045, RSMo.

C316031001-007

Julie

NR 886 DFA19000033 has been submitted to extend contracts C316031001-007 through 9/30/19. This extension is requested to allow time for the rebid of these contracts as well as allow proper transition to the new contracts when they are awarded.

Historically, the solicitation process for FCCM has required extra time to address the complexities of the services and respond to protests. This extension will allow time for the rebid process and any contract follow-up that will be necessary after new contracts are awarded.

The extension will also allow The Department of Social Services to establish a plan designed to reduce the number of children and families impacted in the event cases served under the contract need to be transitioned between contractors. Transitioning a single case between contractors disrupts case activities and can delay opportunities for the case to exit services. Transitioning a large number of cases at one time amplifies the disruption and it takes even longer for services to stabilize and continue. When the current contracts were awarded, approximately 1/3 of the cases served under the contract required transition between contractors due to new caseloads awarded. Due to timing of the contract award, only a short transition time was available and a large number of these cases experienced delays associated with case transition. A longer transition time will allow fewer cases to be impacted by new contract awards.

Continuing the contract through 9/30/19 also allows the contract measures to continue to be measured as they have been since 2005 when the first contract was awarded. DSS submits an annual report to the legislature comparing the year to year results of the contract. Consistent measurement periods are important when measuring the success or breakdowns of a program. In addition to consistency, these contracts are designed to incentivize contractor results in accordance with 13 CSR 32.020. A contract extension with a different timeframe impacts the outcome measures and the contractor's opportunities to achieve contract milestones and receive incentive payment. Likewise, working through different measuring periods is not something that is currently mechanized. Developing new measuring process to accommodate a different contract timeframe will cost DSS a substantial amount of time and resources.

DSS acknowledges that we are delayed in providing and updated RFP draft to DPM. The new draft RFP is progressing and will be provided to the Division of Purchasing within the next week or two. Part of the work on the draft RFP has been working with the current contractors to identify strategies to mitigate the concerns related to case transitions due to contract award. This may impact the contract award language in the RFP. Likewise, child welfare practice has evolved which requires revisions to the RFP requirements. While some of the practice updates are still pending, the RFP requires adjustment to ensure consistent child welfare practice throughout the state. These changes are being incorporated into the draft RFP and final touches are pending.

Once the final changes are incorporated, the RFP will be submitted through internal reviews in line with the new purchasing processes and completion of the Quarter Million Dollar Worksheet.

Please let me know if you have any questions. Thank you
